

About PR Australia

At PR Australia, we specialise in designing and supplying high-quality portable and modular buildings built for Australian conditions. Based in Sydney, we offer a wide range of solutions from site offices, lunchrooms, and ablution blocks to granny flats and custom residential units. Every building is durable, affordable, and fully customisable to suit your needs, with fast delivery and installation. Whether for short-term projects or long-term living, PR Australia is your trusted partner for reliable portable building solutions.

From Design To Delivery

We take care of every stage of your project from initial design and approvals through to manufacturing, delivery, installation, and after-care. Our team ensures a smooth, hassle-free experience so you can focus on what matters most, knowing your building is in expert hands.

At PR Australia, we provide durable, affordable portable buildings, relocatable offices, and manufactured homes designed to stand the test of time.

Each build is carefully constructed using fire-retardant EPS panels, delivering strength, safety, and long-term performance. We offer a broad selection of floor plans and inclusions to cover every requirement, and if you need something unique, our team can design and construct a custom solution tailored to you.

Because every unit is made to order in our own factory, you can count on precision workmanship, flexible options, and reliable delivery whether it's a compact setup or a large-scale installation.

For sites in bushfire-prone areas, we can also build to BAL-29 standards, adding extra protection and peace of mind.

Proudly based in Sydney and Aussie-owned, PR Australia works with trusted suppliers and skilled tradespeople who put care and expertise into every project.

From the first sketch to final installation and after-care, we're here to make the process simple and stress-free ensuring your building is done right the first time.
